

# The Way to Sustainable Growth

## and Effective Services

### ABOUT US

PT Nero Tri Mahitara is a reputable indigenous petroleum industry trader in Indonesia. To satisfy various requests, we acquire wide ranges of crude oil, petroleum products, and petrochemicals. We balance service support, marine logistics, and product management, including marketing, supply, and trade, by utilizing industry expertise and vast industrial oil experience.

### OUR REGIONAL KNOWLEDGE AND SECTOR EXPERTISE

We use our comprehensive awareness of the region to support several enterprises and individuals in risk and responsibility management, overcoming challenges, and maximizing economic potential. In today's complex and unstable business world, our industry knowledge will assist in securing long-term success.

### WHY CHOOSE US?

#### COMPETITIVE PRICE

Petroleum price fluctuations can have a significant impact on the country's economic activities. To prevent this from happening, for every product we sell, we always offer the best possible pricing. The combination of high-quality items and low prices will support long-term yearly operational cost savings for each consumer.

#### TIMELY DELIVERY

A timely delivery is critical to ensuring the consumer's operations and production run smoothly. To ensure our clients' satisfaction, we offer a consistent supply guarantee and will make every effort to fulfill every order request on time.

## PRODUCT QUALITY

Our entire product line is supported by quality assurance protocols and supplemented by guidance documents. In an effort to distribute the products to consumers, we will guarantee that the specifications of the product match what's required. We'll also make sure that the delivery is done correctly and in accordance with the amount that was agreed upon. Everything is transparent and can be checked against the delivery schedule.

## BEST SERVICE

Nero provides specialized services to satisfy the evolving and complicated needs of businesses engaged in the petroleum industry. We provide full and continuous service, from delivery (by sea or land) to fuel management services (FMS). Our entire staff has the knowledge, abilities, and connections needed to offer our clients high-quality services.

## OPERATIONS & FACILITIES

We are diversifying our reserves and play-types while employing innovative technology and developing niche technical solutions to maximize our hydrocarbon potential.

## Service Support

Through our Kalimantan Offshore Oil Supply Base, we provide services to the Indonesian oil and gas industry, consistently delivering international standard and cost-effective services to all of our clients. Our services include quayside operations, transport management, and port management.

## Marketing

Our traders buy, sell, and move petroleum products with our partners, integrating our products and services to provide energy solutions.

## Petroleum Logistic

Our fleet consist of sea and land transportation such as Tankers, Self propelled Oil Barge (SPOB) and Land Fuel Trucks. Providing the best possible service in fuel distribution industry with upmost efficiency and trust in its implementation.

## Supply & Trading

At Nero, we use our size, depth of knowledge, combination of resources, and partnerships with third parties to establish a variety of supply and trading possibilities for our products and services, allowing us to deliver them to our clients at the most advantageous times.
